* Lanyard attachment supported, sold separately

HIGH-SPEED CONNECTIVITY WHEREVER IT'S NEEDED

The Cat Q10 is completely portable and designed for use by businesses - connecting devices in outdoor spaces and worksites, market stalls and pop-up stores, events and exhibitions, and other temporary or semi-permanent locations - as well as by individuals that are on-the-go or in settings where Wi-Fi networks cannot be relied upon. It could even be used in scenarios such as a disaster relief situation where fixed-line broadband is disrupted.

EASY SETUP

Intuitive, easy setup via mobile devices or Internet browsers.

STAY CONNECTED FOR LONGER

The Cat Q10 has a large dedicated battery to keep connected devices online for longer, and users can swap the battery if additional power is needed. 10 hours usage, 1000 hours standby, and powerbank functionality.

BUILT RUGGED

IP68 weatherproof: rain, snow, sand, dust and dirt resistant. Military spec hardware: tested to MIL-SPEC 810H. Drop-tested
